

Test Plan

❑ HTML validation

Using W3C validation tool the page has been validate. Here are the results:

The screenshot displays the W3C HTML Validator results for a document. It lists four warnings, all of which are recommendations rather than errors. The first warning suggests adding a `lang` attribute to the `html` start tag to declare the document's language. The subsequent three warnings indicate that the `type` attribute is unnecessary for JavaScript resources in three different `<script>` tags. Each warning includes the specific line and column numbers where the issue was found and provides links for further guidance.

- Warning** Consider adding a `lang` attribute to the `html` start tag to declare the language of this document.
From line 1, column 16, to line 1, column 21
TYPE: `html` > `html` < `head` >
For further guidance, consult [Declaring the overall language of a page](#) and [Choosing language tags](#).
If the HTML checker has misidentified the language of this document, please [file an issue report](#) or [send e-mail to report the problem](#).
- Warning** The `type` attribute is unnecessary for JavaScript resources.
From line 1, column 245, to line 1, column 321
`app</div><script type=``text/javascript src=``/static/js/manifest.2ae2e69a06c33dfc65f8.js></scri`
- Warning** The `type` attribute is unnecessary for JavaScript resources.
From line 1, column 331, to line 1, column 405
`></script><script type=``text/javascript src=``/static/js/vendor.410f62cf97b2613bdc00.js></scri`
- Warning** The `type` attribute is unnecessary for JavaScript resources.
From line 1, column 415, to line 1, column 486
`></script><script type=``text/javascript src=``/static/js/app.5391cc3f04ae02556cf1.js></scri`

Test resulted in 4 warnings all of which are recommendations rather than errors

❑ CSS Validation

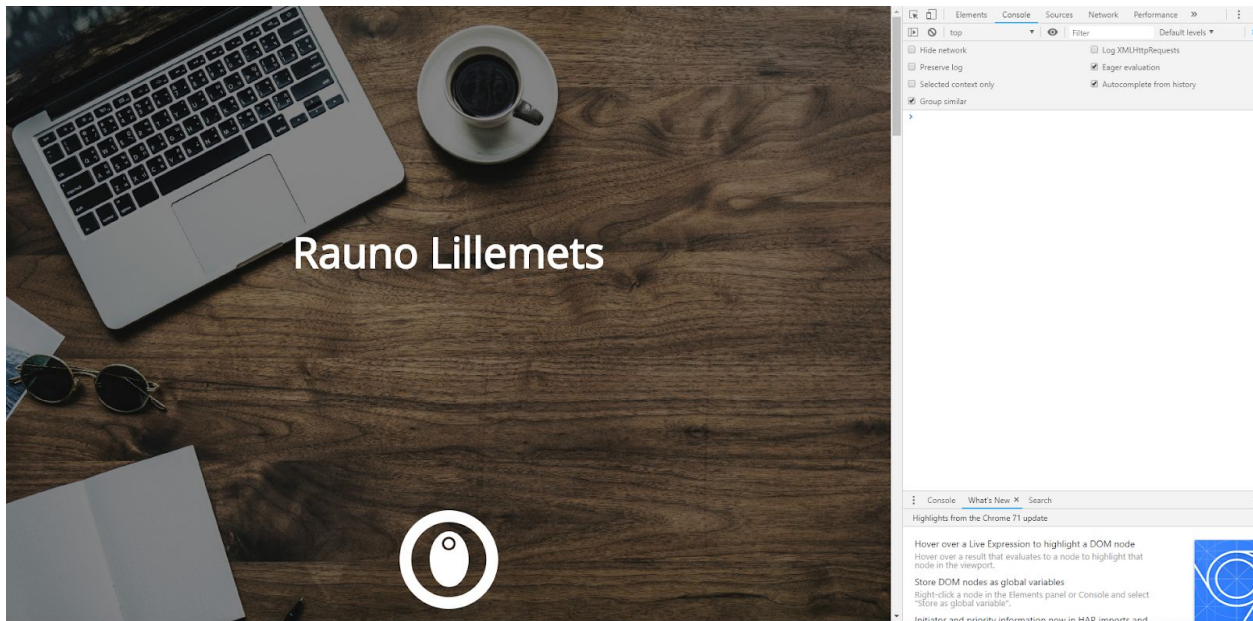

W3C CSS Validator results for <https://raunol.github.io/> (CSS level 3 + SVG)

Congratulations! No Error Found.

This document validates as [CSS level 3 + SVG](#) !

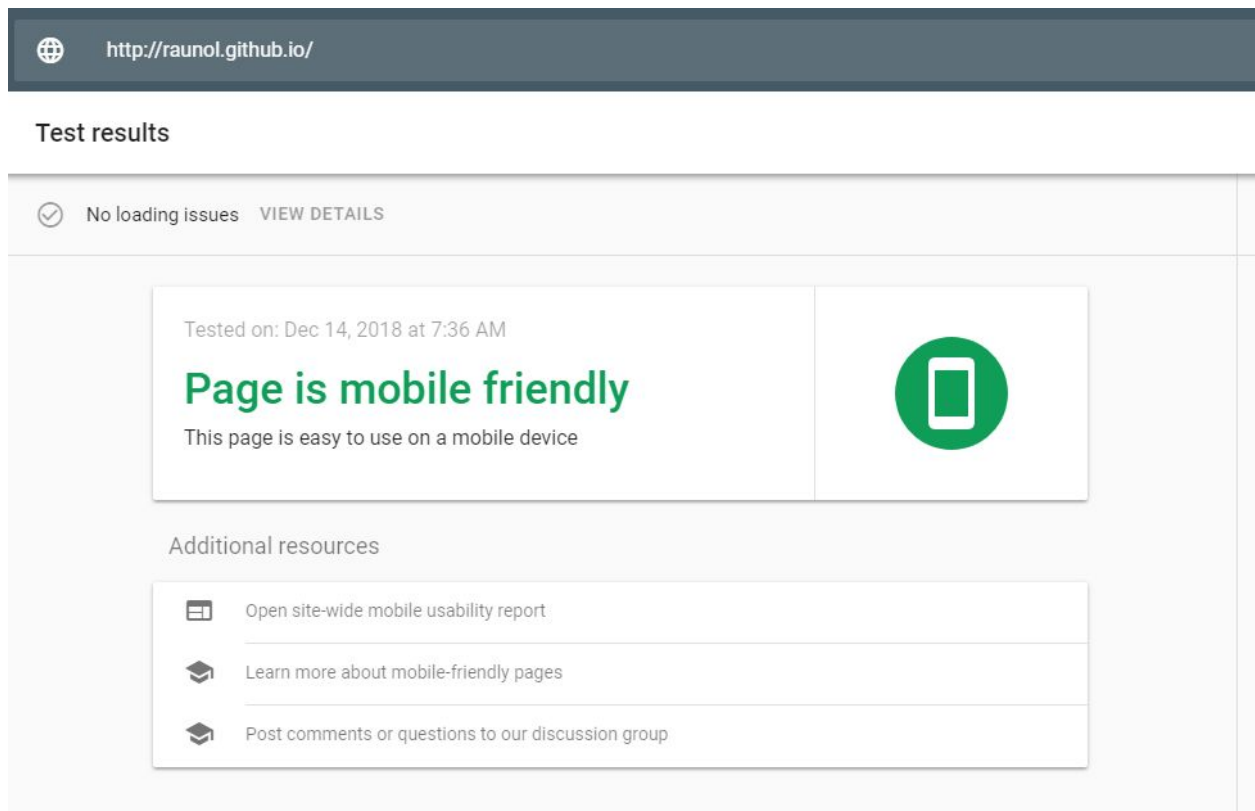

W3C css validator found no errors in CSS

❏ Google Chrome developer tool

Chrome developer tool does not display any errors in the console

☐ Google's mobile-friendly tester

Google's mobile-friendly test shows that the page is mobile friendly

☐ Website functionality testing

All the links have been tested and work as intended.

☐ Compatibility testing
